ELLE stacking stools & chair

Elle seamlessly integrates classic geometrical styling with simple elegance to create a look that is rigorous, essential and modern. The Elle line makes no compromise between style and function, simple beauty and strength.

Both the Elle chair and the Elle stool are stackable and there is no folding, disassembling or tricks of any kind to prepare them for storage simply stack and forget. Stacking is extremely compact and designed with a special soft mount stack system that actually protects the stools as they nest into one another. The squared geometric lines give the stools their neat look and strength. While they may look like a delicate piece of art they have been designed and rigorously tested to take the abuses involved with heavy commercial use.
